RECENT PROJECTS

Portfolio — *Dominicmena.com*

- Portfolio built with Nextjs, Animation and Tailwind: Designed and built a personal portfolio website showcasing projects and skills, utilizing animations and Tailwind CSS to create an engaging and visually appealing user experience.

Full Stack E-Commerce App — *Uvinyl.vercel.app*

- Developed a full stack e-commerce website using React, Tailwind, User Auth. Providing a user-friendly interface for customers to browse and purchase products, implemented payment integration, and integrated a back-end server to manage inventory and orders.

Recipe API App — *vuejs-search-meals-murex.vercel.app*

- Built with Vue.JS, Vuex, & Tailwind - An app providing users with a comprehensive API database to search recipes from all over the web. This app taps the recipe database using 3 different endpoints for a versatile search experience.

- Create and maintain User Acceptance Test scripts for customer solutions.

SKILLS

- Python • Django • React.js
- Node.js • Microsoft Excel
- MongoDB • Account Management • CSS • HTML5 • JavaScript • Vuejs

SUMMARY

As a full stack software engineer with expertise in JavaScript, Python, Django, React, MongoDB, and Node.js, I am well-equipped to contribute to any Software Engineer team. My proficiency extends beyond technical skills, as I bring strong project management, strategic planning, data analysis, & operations management abilities to the table. I am experienced in utilizing SQL, data mining, data entry, auditing, and Microsoft Excel to support my work.
